

ADMINISTRATIVE INTERNAL USE ONLY

17 January 1979

MEMORANDUM FOR: Deputy Director of Security

FROM:

[redacted]
DCI Area Security Officer

SUBJECT:

Request for CIA Classified Information -
[redacted]

1. On 15 January 1979, [redacted] OLC, asked whether she could send CIA TOPSECRET material to Subject, who is on Senator Bentsen's personal staff. She advised that [redacted] had a TS clearance and a Diebold safe. After determining that the proposed retention area was not approved, I told her [redacted] would have to survey the site and the safe, and approve it before the material could be furnished. I advised that we have sent material to SSCI for review by Senate staffers, with the material being retained in the SSCI vault.

2. [redacted] prepared a draft request for a survey of the site. Meantime, I determined [redacted] had no CIA clearance, but was TS-cleared by OSD. I also learned that his security file indicated no action was to be taken without Director of Security approval. At this point I contacted you, and after discussing the matter, requested a meeting with the Legislative Counsel.

3. Later on 16 January, I met with Mr. Hitz and [redacted] and determined that Mr. Hitz had discussed [redacted] access with the DCI, who agreed that, with [redacted] DoD clearance and his need-to-know, it would be extremely difficult to deny him access to SALT-related material. Mr. Hitz said he would advise [redacted] that he must receive CIA classified material through the SSCI, which would retain possession. The request for survey of [redacted] office was withdrawn.
